The Honorable Tom Wheeler
Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Re: GN Docket No. 13-5, Technology Transitions; GN Docket No. 12-353, AT&T
Petition to Launch a Proceeding Concerning the TDM-to-IP Transition; WC Docket
No. 05-25, Special Access for Price Cap Local Exchange Carriers.

Dear Chairman Wheeler:

I am the IT Administrator for Motion Analysis Corporation. Our company is an industry leader in the field of 3D motion capture camera systems and software.

We have chosen a competitive carrier for our voice and data services. They provide the individualized services and customer support we need. They provide high speed, competitively priced voice and data services that are currently not available through other carriers. This allows us to offer significantly improved software distribution to our customers in a way that was not possible otherwise.

We commend the FCC's efforts to provide customers with more choices for broadband service. As technology transitions and more services move to IP based solutions, we encourage you to protect the wholesale access market. This will ensure that our ability to choose a competitive provider, based on factors including customer service and price, will remain intact.

By keeping the marketplace open for more competition, the FCC will help ensure that businesses like ours have the power to choose the broadband provider that is the best fit for our needs and growth.

Sincerely,

A handwritten signature in black ink, appearing to read "John Mollema", written over a horizontal line.

John Mollema
Motion Analysis Corporation
